Dear Nicola Limarby,

Hereby I would like to give you the final copy of the finished Thesis. It was an Honor conducting this research for Geoprotex. I have truly learned a lot about this topic and about life as a whole. I hope that we can wake up our world and let them know about the capabilities of Geoprotex. For now, until my last day here on earth, I will always people know about the dangers of artificial radiation. Thanks to you.
